Trinity Pension Consultants Expands to Columbus Market

AKRON, OHIO – Feb. 28, 2011 – Trinity Pension Consultants is a growing third-party administration firm specializing in retirement administration and actuarial services. Headquartered in Akron, Trinity has opened a Columbus office. The new office, which opened Jan. 1, is located at 6047 Frantz Rd., Suite 103, Columbus, OH, 43017.

“Trinity has experienced a lot of growth over the last two years, including acquiring larger office space in Akron to accommodate multiple hires,” said Principal Anthony Warren. “We felt the next step was to expand our service offerings geographically. We currently have clients across the Northeast Ohio region and even into Toledo, so it made sense to expand into central and southern Ohio.”

Columbus was also chosen for its proximity to Trinity’s headquarters while still allowing the company to reach the Cincinnati and Dayton areas. One of Trinity’s greatest strengths is its ability to provide local, face-to-face service.

The new office will be managed by Trinity Principal Kevin Bergdorf and Retirement Plan Consultant Christabelle Cook.

“We wanted to have a physical location in order to provide the same service to the Columbus market as we do in Northeast Ohio” Cook said. “Kevin’s expertise combined with a dedicated external consultant helps set Trinity apart from other third-party administrators in the area.”

Trinity’s OPEN service model also sets it apart from the competition. The company believes in putting relationships first by understanding the goals of the businesses it partners with.

“Our main goal right now is to reach out to financial advisors in the area,” Cook said. “We want to help them build their businesses by providing support, consultative services and exceptional customer service for their qualified retirement clients. We also hope to see the same growth in Columbus as we’ve seen in Northeast Ohio.”

About Trinity Pension Consultants

Trinity Pension Consultants was established in 2006 by friends and colleagues Anthony Warren and Kevin Bergdorf. Both had worked for a local third-party administration firm and in the corporate financial world. Their experiences led them to realize there was a need for a TPA firm that had a fresh perspective on what financial advisors needed and wanted. Trinity's OPEN solution means clear communication, building relationships, and understanding the clients' businesses and challenges in order to design a plan that puts their needs first.
